

# DIGITAL LINK BETWEEN CLINIC AND LAB

## Clinic2Lab

An efficient and secure online system for order management and communication between clinics and dental laboratories.

## About Clinic2Lab

The system's digital order form reduces the amount of manual work between the clinic and the laboratory when ordering dental prosthetics.

## Want to know more?

Contact us to learn more about the advantages for you when using Clinic2Lab.

## Your Advantages:

### Digital Order Form

Efficiently minimizes manual work in a sustainable way.

### Order Creation

Create the order directly in the system – it's easy and straightforward.

### Track and Trace

Follow your order from start to finish and be notified when the order is on its way.

### Communication

Easy exchange of messages between the clinic and the laboratory.

### Data Security and Legislation

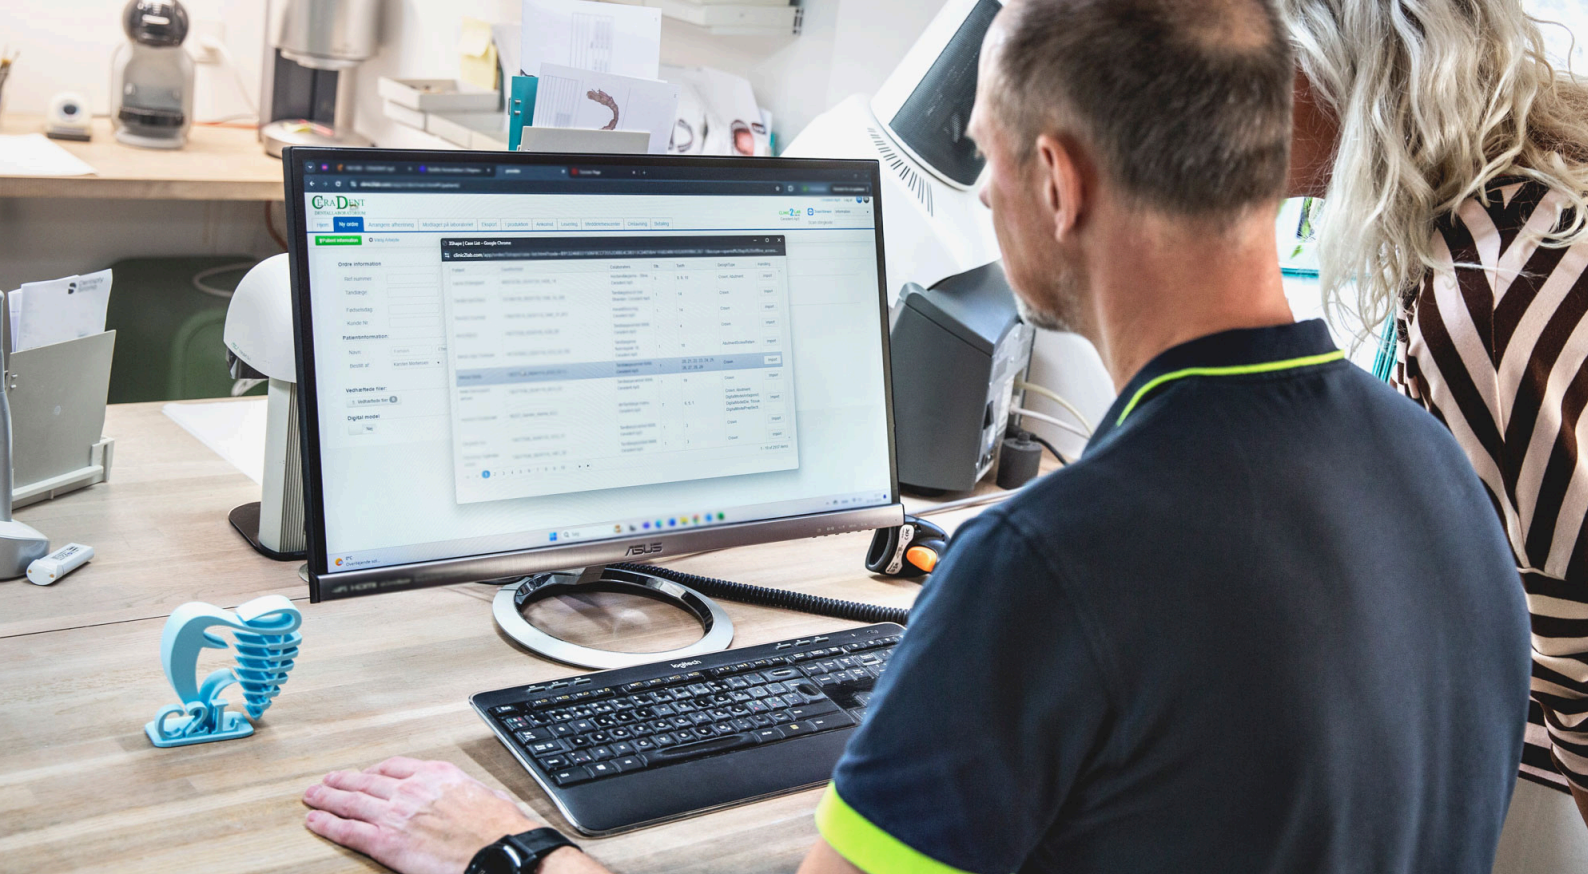

The system meets current authority and GDPR requirements.

### Integration to Accounting Systems

Ensures an efficient and smooth invoicing and bookkeeping process.

# Clinic2Lab

Designed to Optimise Your Daily Workflow

With Clinic2Lab, you get an online tool specifically designed for collaboration between dentists and dental laboratories.

By digitizing the order procedure, errors are minimized, and the amount of manual work is significantly reduced. This ensures faster delivery of laboratory work.
